

Change of ownership

CashTech Sweden AB (former Axlon Servicepartner AB) has changed ownership starting from November 17, 2008. Karl Spånberg with almost 20 years experience of cash handling, an external partner and two of the employees, Anders Andermo, Product Manager and Göran Jakobsson, research and development will become the new owners.

CashTech will continue to focus on developing solutions for efficient cash handling through automation. For the cash handling industry we offer different types of money changers, coin roll dispensers and coin deposit machines etc.

We will continue to offer training, installation, technical support and service through our service department.

Our many customers are and will be our most valuable asset. We will continuously present new products and solutions to satisfy our customers' need for efficiency and profitability.

We look forward to continue to cooperate with you and look forward to discuss problems and solutions within the cash handling area.

Yours sincerely,

CashTech Sweden AB

Karl Spånberg
